6 January 1964

Copy 5

50X1

MEMORANDUM FOR: Assistant Director for Central Reference

SUBJECT: OCR/CIA "Keyword Index to the Titles of TALENT/
KEYHOLE Reports"

REFERENCE: Chief, SR Memorandum, [redacted] dated
12 December 1963

50X1

1. In accordance with NSCID-8, NPIC publishes, in the interest of the intelligence community, an index of TALENT and KEYHOLE Reports which lists all reports in these systems alphabetically within general subject categories by geographic location by the producing agency. Per the reference, it is understood that Special Register, OCR/CIA, proposes to publish approximately 15 January a keyword index to the titles of TALENT/KEYHOLE Reports. This index would appear to be a direct duplication of the effort which has been going on at NPIC for a considerable period of time.

2. NPIC has always serviced requests for references to particular reports on a specific subject and for index listings. Furthermore, the Center is now able to retrieve reports based on a detailed coding of their content by Minicard system.

3. It is suggested that you review the basis for the proposed Special Register indexing action in light of services readily available at NPIC, otherwise we may be jointly directed to resolve what would appear to be an uneconomic duplication of effort.

12 December 1963

MEMORANDUM FOR: Chief, Staff, OSI
Special Assistant, ORR
Intelligence Information Staff, OOI
Executive Officer, ONE
Chief, PID/CIA, NPIC

SUBJECT: Request for Requirements

1. In connection with its all-source reference support responsibilities the Special Register, OCR/CIA will publish soon a Keyword Index to the Titles of Talent/Keyhole Reports. This reference aid will be similar to the Register's Index to the Titles of COMINT Reports, and will be issued quarterly with annual cumulations.
2. The initial issue, which shall be distributed in January 1964, will cover those formal T and KH reports which were published during the period 1954 through December 1963. It will consist of two parts: (1) an alphabetically arranged index of keywords in the titles of the reports citing the title of the report and the document source, and (2) an index arranged by producing agency and within agency by document series and number with cross references from every additional control number on each document back to the originating agency's document series and number.
3. Kindly advise this office, not later than 15 January 1964, of the number of copies of this publication your office will require. Replies may be telephoned to the Special Register, extension 7200, or you may reply by memorandum.

Chief, Special Register
